

## Concept:

The sun shows its rays in the form of glyphs of fire, making reference to the Solar Calendar or Piedra del Sol, one of the most beautiful and representative sculptural pieces of the Mexican culture.

The energy is stored in the form of a battery and is placed in the place that symbolizes the center of the universe.

The green leaves generated by solar energy refers to the process of photosynthesis, creator of life on the planet.

## Forms:

Circles: represent movement, adaptability, innovation, protection, universality, perfection and creativity.

Triangles: represent direction, growth, progress, balance, justice and science.

Leaves: they represent nature, the living, the vegetal.

## Colors:

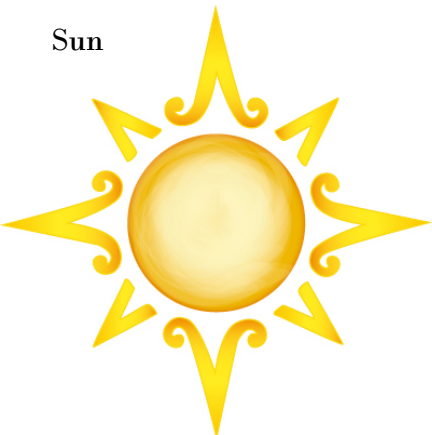

Yellow: represents kindness, warmth, joy, lightness and energy, the positive and the stimulating.

Green: represents life, nature, freshness, growth, serenity and organic.

Gray: represents the metallic, the value, the sophistication, the prestige, the timelessness and the power.
